

Task 10: Clean up

Goal:

- Clean the mess in the lab premises

Recommended reading:

None

Steps:

- 1) Put your client and server boxes in the indicated place. Be careful with the video cable attached to the server box – leaning it against an obstacle could break the video card.
- 2) Put monitor(s), keyboards/mice, switches/hubs, and any cables that do not belong to the computer that hangs in the cage underneath the table in the boxes or on the shelves where they belong.
- 3) Throw away any litter at and near your lab location.

Sample final exam questions:

- **IMPORTANT:** This task must be carried out after the final examination!
